The year of 1963 was one of achievement and growth at the Ingalls Memorial Library. Friends, trustees, and staff have fully cooperated to make it a satisfactory and rewarding year.

A new development in the work of the library has been the association with Franklin Pierce College. The relationship has been cordial and the students have added a new interest to our program.

Attention has been concentrated on our Reference Department where we have added books on literary criticism, sociology, psychiatry, art, biology, travel, and history.

Through the generosity of friends some much-needed equipment was purchased. A shelf list and a vertical file have been added which greatly improve the efficiency with which materials may be handled. A bookcase given for the museum has been used for valuable old books. In addition the same library friend paid our box rent at the Post Office for a year.

A gift much appreciated by patrons and staff alike is the flood light in front of the library.

We also received and are most grateful for donations of books, magazines, and money from the following friends of the library:

Prof. Douglas Adams, Mrs. Arthur Allen, Mrs. S. G. Cunningham, Mrs. George Coppers, Mrs. John Crosby, Mrs. Arthur Chase, Mr. and Mrs. Allen Elsberry, Mr. and Mrs. Raymond Ford, Mr. Ralph Hoyt, Mrs. Fred Howard, Mrs. Agnes Johnston, Mr. Robert Kennedy, Mrs. H. W. Kenyon, Jr., Mr. Edwin Klein, Stephen Knight, Mr. R. B. LaRue, Mr. Walter Lovell, Mrs. James MacNeil, and children, Mr. S. P. Mellville, Mr. Edward McCloud, Mr. and Mrs. Aubrey Nicholson, Mrs. Ralph Pangborn, Mrs. Mary Prebble, Mr. Donald Prebble, Mrs. Charles Rice, Mr. and Mrs. Howard Rice, Mr. John P. Sherwin, Mr. Philip Simoulis, Mrs. Alice Scott, Dr. and Mrs. Douglas Sloane, Mrs. Philip Towle, Mr. and Mrs. Walter Troup, Prof. and Mrs. Everard Upjohn, Mrs. Ralph Ward.

Memorial books have been received in memory of Mr. Carl Converse, Miss Florence Danforth, Mrs. Helen Sandbeck, and Mr. R. B. LaRue.

Mr. R. B. LaRue's private library was given and a substantial fund established in his name. Several fine history books from the collection of the late Raymond Ford were also donated.

A story hour for the younger children has been held Monday afternoons with Mrs. Russell Bacon as the reader. She has been enthusiastically welcomed by the children.

I wish to express my appreciation to the trustees for their cooperation, to Mrs. Marshall Danforth, Mrs. Arthur Chase, Miss Carol Stewart, Mr. Walter Lovell, who all helped to make 1963 a most successful year.

Respectively submitted,

Carrie S. Gray
Librarian

REPORT OF THE TRUSTEES OF INGALLS MEMORIAL LIBRARY

Our report this year is given with considerable pride and satisfaction for all the work that has been accomplished.

Due to the opening of the Franklin Pierce College many hours were added to the time the library was generally opened — hours being Monday through Friday from 10 A.M. to 5:30 P.M., and two evenings a week — Tuesday and Thursday to 9 P.M. Mrs. Gray, assisted by Mrs. Marshall Danforth and Mrs. Arthur Chase, have given maximum service to all students — college, high school, junior high and grammer schools, and to those in town who use the library. This has made the library extremely active and we believe from a standpoint of service to the town the past year has been one of the best we have ever had.

In July the library had a most successful food and rummage sale, the proceeds from which paid in full for the American Encyclopedia which was added to the library in 1962. Mrs. Gray reports it is greatly used by our young high school students.

In August we had an art exhibit and silver tea for the benefit of a badly needed typewriter, which we acquired.

During October toilet and water facilities were installed, as well as an electric flood light on the elm tree in front of the building.

During the holidays the library was closed to the public while it was being painted, and the result is highly pleasing to everyone.

The library has no funds for completing the parking lot and fixing a new sidewalk. We are hoping the town will go ahead and surface the parking lot and repair and surface the

sidewalk, and replace the old steps that went to the parking lot.

In the latter part of the year the library roof was repaired and leaks were stopped.

The Trustees thank Mrs. Gray, Mrs. Danforth, Mrs. Chase and Mr. Walter Lovell for their interest and assistance in making the library a source of delight to all.

We thank all our good library friends who have helped in so many ways and have been so generous with gifts, suggestions and their time.

B. SCHOOL PROGRAM

"The primary concern of American education today is not the development of the appreciation of the 'good life' in young gentlemen born to the purple. Our purpose is to cultivate in the largest number of our future citizens an appreciation both of the responsibilities and benefits which come to them because they are American and free." (James B. Conant)

Several years ago we developed the Spalding Phonics method in reading and the related language arts; a year ago we gave particular attention to the application of the so-called "new mathematics" to our curriculum. This year we have continued along these lines, thanks to the co-operative activity within our staff.

To those of you who are curious as to the content of the "new mathematics," a brief word might be in order. The primary difference between the "traditional" and "modern" approach is in the method by which the fundamental processes are taught. The former method tends to stress the mechanics of mathematics in contrast to the development of an understanding as to the "why" of mathematics, an approach which gives a more effective understanding of the more abstract mathematical concepts so necessary for a full understanding of the mathematical and scientific experiences ahead.

Prior to the opening of school two series of Union-wide meetings were held for teachers. Rindge, along with others in the Union, met for a period of six days, concerning themselves with the third grade arithmetic program and orientation of new teachers. Our teachers also took advantage of the Teachers' Institute in Mathematics, sponsored by our Supervisory Union, and other engaged in independent study at Keene State College.

As a continuation of the above-mentioned mathematics program, we anticipate a series of staff meetings to be held prior to the close of the current school year to prepare for the further development of our arithmetic instruction in the upper grades.

As for our young people, they too have been busy. Early in the fall our entire fifth grade spent a week at Sargent Camp, studying "Inter-relationship's in Community Life." Last spring grades two and three had a field trip at Benson Animal Farm at Hudson, and our intermediate grades, as guests of Representative James Allen, visited the State House at Concord.

In looking forward to the fall of 1964, it appears that we will have no change in the general enrollment picture. The sending of the current sixth grade to Jaffrey eased a difficult problem of numbers. The general progress of our pupils at Jaffrey has been gratifying, and they have easily adjusted themselves to the children of that community with whom they will associate through their remaining public school experience. If added space is not available in Rindge by the opening of school next fall, we may be assured that the policy adopted last fall can be continued to the betterment of the enrollment and instructional picture.

PART VI. AUXILIARY ACTIVITIES AND SPECIAL REPORTS

A. HEALTH

The general health of Rindge pupils has been unusually good. There were only 5 cases of chicken-pox reported and 2 cases of skin infections. Only 5 pupils were taken home from school by the nurse for sickness with the exception of several Rindge pupils taken home from Conant. Parents have been co-operative in keeping sick children home from school.

Dr. Sterling, school physician, examined 61 pupils in the odd-numbered grades, as well as special cases referred to him. He has been available for consultation in problem cases, and has assisted in planning for general school health programs and immunizations. The school nurse completed annual vision and hearing tests and kept watch for conditions requiing special attention. Assistance was given in corrections of remedial dental and vision defects.

The annual dental clinic, subsidized by special funds, was continued for the benefit of children who might not find dental services available to them. Thirty-six office appointments with Dr. Raymond Moore provided 92 fillings nd 29 extractions for 21 different pupils.

Immunization from all three types of polio is now being done with the Sabin Oral Vaccine. Three separate drinks for this more permanent immunization were given, all pupils being included in the program. There were 406 drinks given and, for those who missed one or more of the three types, another opportunity will be given to complete the series.

The annual pre-school registration and examinations were held in May. On this day all pupils were advanced one grade, permitting new pupils to be in the classroom to become better acquainted with the teacher. The sixth graders also had the opportunity to "move up a grade" and visit the junior high school in Jaffrey. The pupils and the teachers all profited by this experience.

The pre-school registration provides the oppotrunity for parents and pupils to become acquainted with the school, to receive information about the school regulations, the facilities,

the school calendar, and school personnel. At his time birth certificates are checked, health histories taken, and a record system set up for each child. Children are also checked for vision, hearing, dental work, and physical defects which might influence school achievement. This gives a chance for summer corrections. School aodministrators also have an opportunity to make provision during the summer for classroom and school bus needs.

Approved professional meetings were attended by the nurse. Among these were:

Organizational meeting, Peterborough	1 day
State Teacher Convention, Manchester	1 day
Nurse Professional meetings, Concord	7 days
Nurse Professional meetings, Concord	9 days
Nurse Professional meetings, Monadnock Regional	1 day
Nurse Professional meetings, Keene	1 day
Nurse Professional meetings, Peterborough	3 days

B. REPORT OF RINDGE SCHOOL DISTRICT BUILDING STUDY COMMITTEE

The frollowing members of the building study were appointed by Walter Cleveland, Moderator of School District: Roger Burt, Walter Hood, William Stoddard, John Weidner, and Newell Whitaker. William Stoddard was elected chairman and John Weidner, clerk.

The first meeting of the committee consisted of overall discussion and planning for the future. The original architect was to be contacted and the State Board of Education. A survey was to be made of the future needs of the school district. Mr. Coates, who was on the school board when the present building was constructed, was to be contacted for information.

Mr. Coates was present at a subsequent meeting and presented much helpful information. He informed the committee that while no formal plans had been drawn up some consideration had been made for expansion, all electrical conduits, and piping end in the east wall and that dowels are in the foundation.

Mr. Damon Russell of thre State Board of Education was present at another meeting, members of the school board, and Mr. Foote and Mr. Barnes from the Supervisory Union. At this meeting the following points were brought out.

The seventh and eighth grades should be educated in a junior high school level, where proper departmentalization can be carried out. The demands on high school graduates are becoming so great by both colleges and business that the high school system is having to meet higher educational standards. In order to meet these standards it is becoming necessary for junior high grades of 7, 8, and 9 to be better prepared for senior high school.

The Rindge School District will probably continue sending the 7-12 grades to Jaffrey and will participate in the future under the area school plan. The need for this is evidenced by the fact that the state would like all high schools to have a minimum of 500 students. They feel that in this way the students can get the best possible education at the optimum cost.

We have two alternatives to our educational problem, the committee feels. However, we should first consider the fact that in order to properly educate our children; each grade should be in a separate classroom with a separate teacher. Also it is not too distant in the future that the State Board of Education will require a library in each elementary school. The state also strongly recommends that an elementary school with six teachers should allow one-half of the principal's school day

for administration purposes, and that a school with eight teachers have a full-time principal.

Taking these requirements into consideration the committee feels that the two following plans are the only realistic solutions.

Plan A: Tuitioning the 5th and 6th grades out to Jaffrey — this is a good plan because the Jaffrey School District can easily accommodate the Rindge 5th and 6th grades, room being available due to the advent of the parochial school in Jaffrey. The educational standards of the Jaffrey school are very fine.

Plan B: Grades 1-6 can be properly educated in a town our size, but it is most desirable to have a teacher and classroom for each grade. Our increased enrollment is such that it is becoming difficult for a single teacher to instruct a large mixed class. Also the material and methods being taught are becoming more advanced. The State Board of Education recommends that a single classroom and teacher per grade is highly desirable.

Articles are being inserted in the warrant for the people of the school district to express their feelings for either plan.

The committee feels after discussing educational standards with Mr. Russell that the district consider adding a third classroom, this room to be used as a library, health room, permanent audio visual aid room, and remedial reading room. The third room would be a definite asset to the school. The committee, after consultation with a builder and architect and taking into consideration the present structure, finds it not feasible to add only three rooms. Considering that we will eventually add more classrooms as the district grows, we should plan now for the future. The committee therefore recommends that we add the equivalent of four rooms. The space for the fourth room is to be used for boys' and girls' toilet facilities, teachers' room, and storage, the present teachers' room used only for first aid. The committee has had floor plans drawn up with the specific idea in mind of allowing for future expansion.

Considering cost for expansion the committee feels the four-room addition can be done for about $40,000.00. The yearly cost will be about:

$ 2,000.00	Principal
1,400.00	Interest
11,500.00	Two and one-half teachers (2 at $4,500.00 and 1 at $2,500.00)
2,000.00	Operational
3,000.00	Equipment
$19,900.00	

This yearby cost will decrease by $3,000.00 after the first year and about $70.00 to $100.00 thereafter as interest decreases.

This cost must be considered against the cost of tuitioning students $300.00 per pupil times 50 pupils in 5th and 6th grades now equals $15,000.00. In considering costs, tuition will not remain constant but will rise, so will teacher and building costs.

The plans being considered by the committee will fit into the present colonial architecture, so that the "Rindge Memorial School" will not have a piece-meal appearance.

REPORT OF THE FIRE WARDEN AND YOUR DISTRICT CHIEF

During the past year New Hampshire faced the greatest forest fire threat to its woodlands in more than sixty years. The continued drought brought home to our citizens, as never before, the potential threat of destructive fires to their beautiful and valuable forests, homes and livelihood. In true American tradition of meeting a common threat by volunteer effort, this fire danger was minimized by active prevention, patrol and a relinguishing of personel rights for the common good. It was the greatest demonstration of public cooperation ever experienced by those responsible for local and state fire control. The ready forces of volunteer fire services kept the losses low. For their effort and public response the general fire service expresses its heartfelt thanks for a job well done.

Prevention however, is not just an activity for the bad fire years. It must be practiced until it becomes a part of our public conscience — — a habit. Just plain carelessness with fire causes too many of our fires.

The following practices and suggestions will help:

1. Always have a permit for outdoor burning and burn within the terms of the permit and in a safe place. Burn late in the afternoon when the wind is down or on rainy or damp days. Check you fire and if winds develop extinguish it promptly.
2. Carry your rubbish to the public dump — its safer. A neglected backyard incinerator causes many fires.
3. Never discard lighted cigarette or match. Make this a year round habit regardless of the safety of your surroundings.
4. Children caused fires are now a major concern. Keep matches away from them and teach them to respect fire and not make it a subject of play.

Lets all join with "Smokey the Bear" and "Keep New Hampshire Green" and growing in 1964.
